

Change la date d'expiration / Lease Date

Checker la date d'expiration d'une VM

La date d'expiration (Lease Date) est visible au niveau des déploiements, ou directement sur la machine.

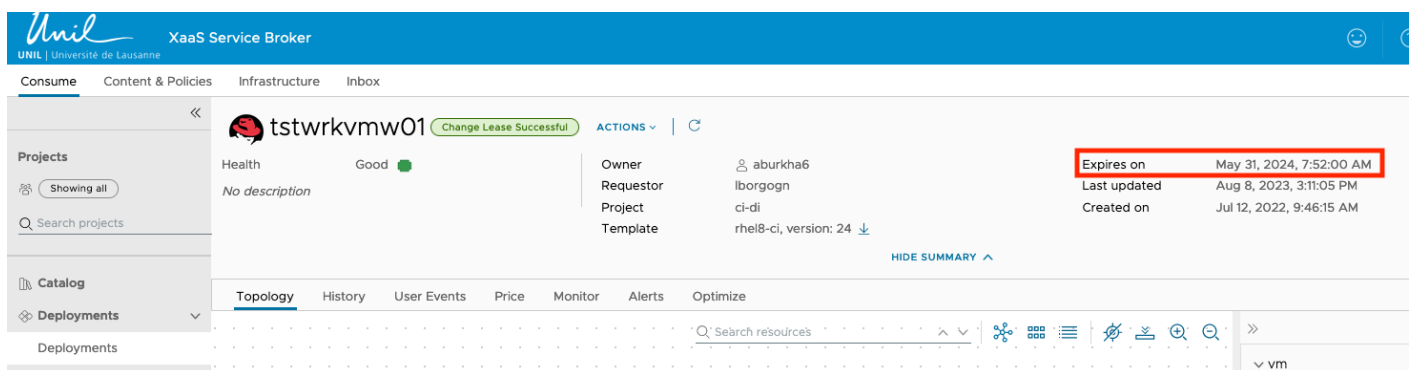

Aller dans le menu Deployments > Deployments. Vous avez l'ensemble des VMs pour lesquels vous avez des permissions, qui s'affichent. L'un des champs "Expires on", indique la date d'expiration de la VM (Lease date).

The screenshot shows the 'Deployments' page in the XaaS Service Broker. A table lists several deployments with columns for Name, Owner, Project, Status, Expires on, Price, and Created on. The 'Expires on' column is highlighted with a red box.

Name	Owner	Project	Status	Expires on	Price	Created on
tstwrkvmw01		ci-di		in 10 months		a year ago
grdfcms2		ci-dsm		in 9 months		a year ago
prdcms4		ci-dsm		in 9 months		a year ago
prdcms3		ci-dsm		in 9 months		a year ago
tstcms4		ci-dsm		in 9 months		a year ago
tstcms3		ci-dsm		in 9 months		a year ago

Si vous cliquez sur l'une des VMs et allez sur les détails de celle-ci, vous aurez la date exacte de l'expiration pour la machine.

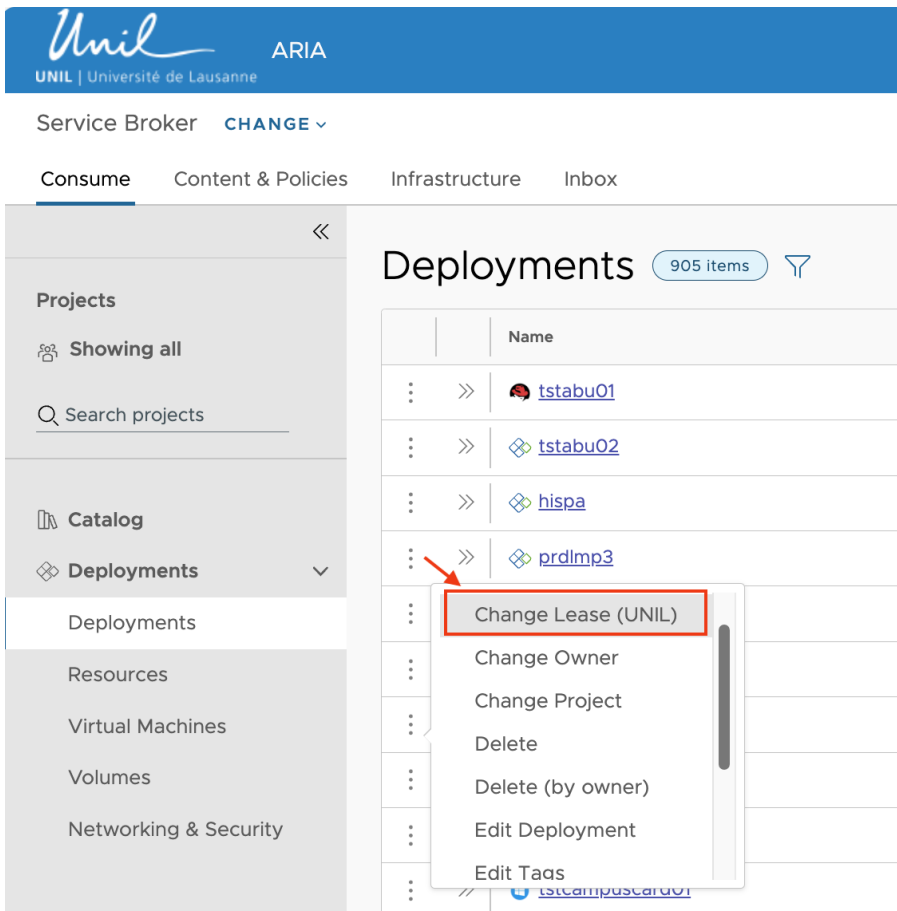

The screenshot shows the details page for the deployment 'tstwrkvmw01'. The 'Expires on' field is highlighted with a red box, showing the exact date and time: May 31, 2024, 7:52:00 AM.

Field	Value
Expires on	May 31, 2024, 7:52:00 AM
Last updated	Aug 8, 2023, 3:11:05 PM
Created on	Jul 12, 2022, 9:46:15 AM

Modifier la date d'expiration

Dans le menu *Deployments > Deployments*, cliquer sur les 3 points à côté de la VM souhaité, puis cliquer sur **Change Lease (UNIL)**.

Sélectionner l'extension souhaitée (1,3,6,9 ou 12 mois), ainsi que l'unité budgétaire associé au déploiement.

Une fois les options sélectionnées, cliquer sur **Submit**.

Action	Change Lease (UNIL)
Deployment	prdlmp2
Number of months: *	12 months  
Budget Unit *	2600030200 - Centre informati...  

Une fois l'extension faite,

The screenshot shows the UNIL ARIA Service Broker interface. The top navigation bar includes the UNIL logo, the name 'ARIA', and user information 'Arnaud Burkha'. Below this, there's a 'Service Broker' section with a 'CHANGE' dropdown. The main area has tabs for 'Consume', 'Content & Policies', 'Infrastructure', and 'Inbox'. On the left, a sidebar contains 'Projects', 'Showing all', 'Search projects', 'Catalog', and 'Deployments'. The central panel displays details for project 'tstabu01', indicating it is 'Good' health with 'No description'. It lists the owner as 'aburkha6', the requestor as 'aburkha6', and the project as 'di-test'. The template is 'rhel, version: 22'. A red box highlights the 'Expires on' date: '22 Mar 2025, 16:52:00'. Other dates shown are 'Deletion scheduled' (20 Jun 2025), 'Last updated' (22 Mar 2024), and 'Created on' (22 Mar 2024). At the bottom, there's a 'Topology' tab selected among others like 'History', 'User Events', 'Monitor', 'Alerts', and 'Optimize'. A search bar at the very bottom says 'Search resources'.
