Add classe files

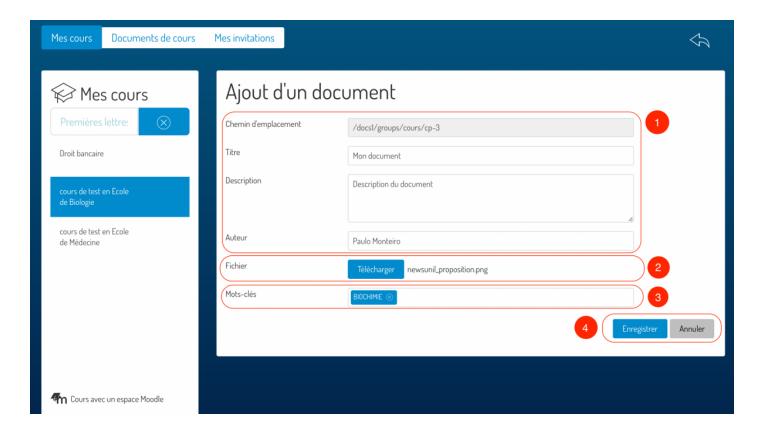

Teachers and student assistants with a proxy for a course can at any time add documents to a course space

Select a course

- 1. Choose from the course list a course for which you want to add documents
- 2. Add a document or directory to the root of the document system in the selected course
- 3. Add a document or directory to the current directory

Add a class file

- 1. Enter document information
- 2. Download the file
- 3. Add the keywords. These keywords will be used to find them in the search for documents
- 4. Validate the addition of document
