

# Lecture Capture

## Management for the autumn 2022 semester

As the fall 2022 semester begins under normal conditions, the broadcasting of live and pre-recorded classes is regarded as a pedagogical tool, and as such it is available to UNIL faculty.

**We encourage you to consult your faculty's or school's official guidelines if you wish to request a live or recorded broadcast of your course for this semester.**

Once a broadcasting request has been submitted, it will be processed in one of three ways:

1. Centralised processing of requests by your faculty or school
2. Processing of individual requests via MyUnil
3. Processing of individual requests via an online form

Please also note that the publication of recordings is now set to "Unpublished" by default. You can manage the distribution of your recordings yourself by following the advice and information available here: <https://wiki.unil.ch/cse/books/guide-pour-lenregistrement-et-la-diffusion-des-cours-unil/chapter/gerer-ses-medias-sur-recunil>
