

# LOGITECH MEETUP SETUP GUIDE

Content of the Mobile kit Logitech MeetUp **DB1** (3 items)

## Large box

- Logitech MeetUp Webcam
- Power adapter
- 5m USB-C → USB-A cable to connect the webcam to the computer
- Remote control (zoom/tilt/pan with memory for 2 presets, and volume control)

## Small box (optional)

- Microphone extension (6m cable) for Logitech MeetUp Webcam

## Soft bag

- 1 tripod to fix the camera

Setup instructions: (it is important to follow them in order)

- 1      Unfold the tripod, adjust the desired height and secure by tightening the screw at the bottom of the central column.
- 2      Install the webcam onto the tripod shoe (insert front first and lock with the lever).
- 3      Connect the USB-C end of the cable (the small connector) to the rear of the webcam and the USB-A side (the large connector) to the computer.
- 4      If needed, connect the Microphone extension to the back of the webcam (Note: this microphone has it's own mute button).
- 5      Connect the webcam to the power
- 6      The webcam should make a sound after a few seconds
  
- 7      Open Zoom and go into the **Zoom preferences**
- 8      In the **video** tab, make sure Logitech MeetUp is selected
- 9      In the **audio** tab, make sure Logitech MeetUp is selected for both **microphone** and **speaker**.
  
- 10     Finally connect your computer to the beamer as you would do for a normal presentation (usually via an HDMI output).

You're good to go 😊

Once your presentation is over, please put everything back into the respective boxes and make sure nothing is missing. THANK YOU !
