

4. OA Deals

- Complete list of agreements with OA component

Complete list of agreements with OA component

SNSF-funded researchers: All Gold OA fees (books, book chapters and articles) of SNSF-funded researchers at UNIL are covered by the SNSF. For some hybrid journals, special agreements have been made with the publishers below, allowing the Hybrid OA publication of articles at no cost.

Researchers without an SNSF grant: Gold OA fees for books are also covered by the SNSF. For articles, special agreements have been made with the following publishers allowing the publication of Gold OA or Hybrid OA articles free of charge or with a discount on the charges. For Gold OA articles not covered by these agreements, or chapters or books in Gold OA, UNIL/CHUV/Unisanté authors are invited to consult the eligibility conditions of their UNIL Gold Open Access Fund.

When these options are not applicable, UNIL generally encourages Green OA (self-archiving in Serval).

Total or Partial APC Subsidy

Conditions to be met in all cases:

- The corresponding author of the submitted article must be a member of UNIL/CHUV/Unisanté.
- Former researchers who are no longer affiliated with UNIL may be eligible for coverage of their publication fees, provided that the research leading to the publication was conducted at UNIL and the work was submitted within one year of the end of their affiliation.
- The affiliation details in the article must clearly indicate the author's affiliation to UNIL/CHUV/Unisanté. Please follow the indications in Directive 4.3 regarding author affiliation.
- Ideally, the author will use his/her ORCID ID .
- Whenever possible, use your @unil, @chuv or @unisante email address to make the submission.
