

There are no good Open Access journals in my domain. How could I possibly comply with Open Access mandates?

If you have checked the Directory of Open Access Journals, [DOAJ](#) and haven't found any relevant journal for the results you would like to publish, you can follow the **Green Road** to OA.

The Green Road refers to the parallel publication of a version of the manuscript in an open repository, or *self-archiving*. Open repositories can be institutional, as our own [SERVAL](#), or disciplinary. The publication is often *delayed* (embargo period) and allowed only for the author accepted manuscript (AAM), also known as postprint. This is the manuscript accepted for publication (post peer-reviewed), but before all copyediting by the editor. There are no costs for researchers to follow this road.

Below you can find a scheme that shows the available roads to Open Access.
