Access

You can access your workspace directly from the main menu by clicking on **“My Workspace.”**

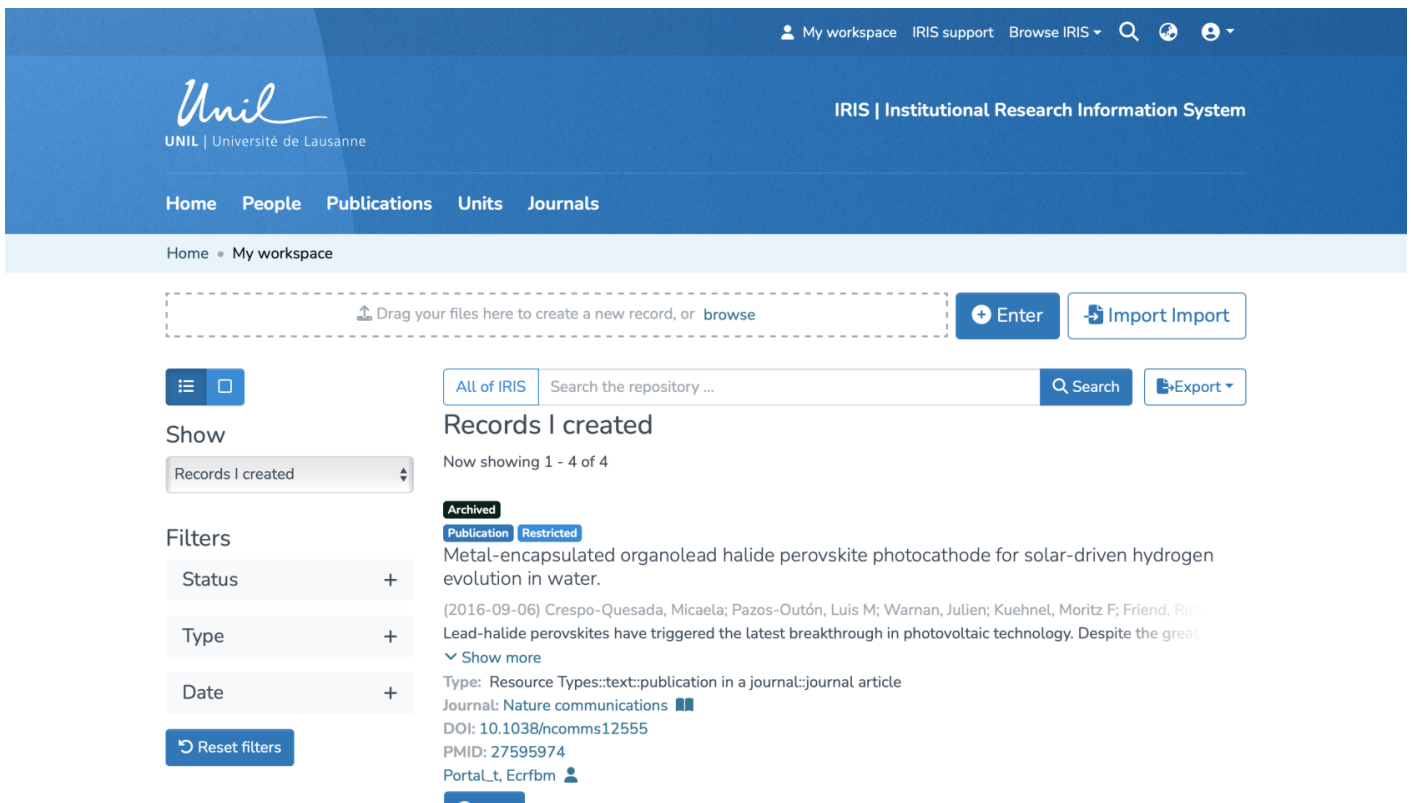

The screenshot shows the UNIL IRIS website interface. At the top, the navigation bar includes the UNIL logo, the text 'UNIL | Université de Lausanne', and the title 'IRIS | Institutional Research Information System'. The main navigation menu contains 'Home', 'People', 'Publications', 'Units', and 'Journals'. A secondary navigation bar at the top right features a 'My workspace' link (highlighted with a red box), 'IRIS support', 'Browse IRIS', and search and user icons. Below the navigation, a search bar is present with the text 'Search the repository ...' and a 'Search' button. A dashboard section displays four categories: 'People' (21634), 'Publications' (212663), 'Units' (546), and 'Journals' (9294). Below this, a section titled 'I need to...' contains three cards: 'Complete my profile' (with a description: 'Information and resources on how to use IRIS and complete my researcher profile'), 'Browse research statistics' (with a description: 'Access to institutional statistics about IRIS contents. Dashboard, figures, etc.'), and 'Discover research at UNIL' (with a description: 'Discover and browse UNIL's research repository'). Social media icons for Facebook, Twitter, LinkedIn, Email, and a plus sign are located at the bottom right of the 'Discover research at UNIL' card.

You can also access it by clicking (1) on your **profile icon**, then (2) on **“My Workspace.”**

Overview

The workspace is displayed as follows. From here, you can **create, import, visualize, modify** and **export** records.

It is divided into three sections:

1. Records I created: This view includes only the records you have entered yourself. You will find records at all stages (draft, in progress, archived), which you can edit, complete, or track.

2. Other linked records (submission in progress): This section displays only records currently in progress to which you are linked, but which you did **not** create yourself. Records that have already been archived do not appear here.

3. Records to validate: If you are a validator, this section lists the records awaiting your review. You can take them in charge, edit them, approve them, or reject them, as needed.

Home • My workspace

Drag your files here to create a new record, or [browse](#) + Enter Import Import

All of IRIS Search the repository ... Search Export

Show **Records I created** Showing 1 - 4 of 4
