

Search and filter faculty publications

There are two main ways to view a faculty's publications in the repository.

From the "Units" tab

1. From the homepage, click on "Units."
2. Type the name of the faculty into the search bar, then click "Search." The results will display the faculty itself, along with its associated organizations.
3. To show only the relevant faculty, click on the "Type" filter and select "Faculty."

The screenshot shows a search interface with a light blue header containing 'Home' and 'Search'. Below the header, there is a search bar with 'All of IRIS' and 'Faculté des lettres' entered, and a 'Search' button. The main content area is divided into two columns. The left column contains a 'Filters' section with 'Institution' (+), 'Type' (-), 'Country' (+), and 'Entity' (+). The 'Type' filter is highlighted with a red box and contains three options: 'Unit (31)', 'Group (21)', and 'Faculty (1)'. Below the filters is a 'Settings' section with 'Sort By' (Most Relevant) and 'Results per page' (10). The right column is titled 'Search unit' and shows 'Now showing 1 - 10 of 53'. It lists four 'Organizational Unit' results, each with a tree icon and a description: 'Faculté des lettres', 'Centre ling. et sciences langage', 'Centre des sciences historiques SHC', and 'Centre interdisc. littératures'. At the bottom right, there are social media icons for Facebook, Twitter, LinkedIn, Email, and Print.

4. Click on the faculty's name.

Se raconter pour changer ? Sur la valeur réflexive de la narrativité en contexte didactique
(2021-07-19) Baroni, Raphaël
Cet article pose un regard rétrospectif sur une expérience de recherche collective fondée sur l'analyse d'un corpus biographies langagières. Il s'agit de problématiser certains lieux communs concernant la narrativité de ces biographies et le bénéfice supposé des récits perso...

Joint attention and reference construction: The role of pointing and "so"
(2021-07) Balantani, Angeliki; Lázaro, Stefanie
This study examines the multimodal package "so" with a pointing gesture in Swiss German. The analysis shows that by using "so" concurrently with resources generally considered to be in the service of local deixis, such as pointing gestures, participants are directing th...

From the "Publications" tab

Unlike a search performed through the "Units" section, a search in the "Publications" section targets only the publications of the faculty itself, without including those of its associated organizations.

1. From the homepage, click on “Publications.”
2. To display publications specific to the relevant faculty, click on the “Unit” filter. You can either type the name of the faculty directly into the search bar, or scroll through the list by clicking “Show more” and selecting it manually.

The screenshot shows the IRIS search interface. At the top, there is a navigation bar with 'Home' and 'Search'. Below it, a search bar contains 'All of IRIS' and a search button. The main heading is 'Search publication', with a sub-heading 'Now showing 1 - 10 of 1031'. On the left, there is a 'Filters' section with several expandable categories: 'Linked person', 'Author', 'Date', 'Language', 'Keywords', 'Unit', and 'Type'. The 'Unit' filter is expanded, showing a list of units with checkboxes and counts: 'Faculté des lettres (435)', 'Faculté de biologie et de médecine (236)', 'Section de français (93)', 'Section d'histoire (64)', and 'Section d'archéologie et antiquité (63)'. A 'Search unit' input field is also visible. The main content area displays three search results, each with a 'Publication' and 'Metadata only' label, a title, a description, a type, and an author.

3. The page will automatically refresh and display only the publications of the selected faculty, excluding those from its associated units, unlike the results shown when searching through the “Units” tab.
4. You can further refine the results using the other available filters and settings.
